Warnings and essential precautions

- Make sure to take Xanax as directed by your doctor. Follow the instructions on the prescription label and read all of them carefully. Avoid using Xanax in larger doses or for a longer duration than prescribed. If you feel a stronger urge to take more of this medication, inform your physician.
- Seek medical help if you experience unusual muscle movements, changes in mood or behavior, confusion, hallucinations, seizures, or suicidal thoughts after stopping Xanax.
- Xanax is an IV-controlled substance because of its potential for misuse and dependence. Please keep it in a safe place to prevent misuse, and do not give it to others. Inform your healthcare provider if you have a history of alcohol or drug abuse.
- This drug can cause problematic breathing, dependence, and overdose if misused. Keep it in a secure place. Do not stop using Xanax suddenly without consulting your doctor to avoid life-threatening withdrawal symptoms.
- If you are currently using antifungal medications such as itraconazole or ketoconazole or have had allergic reactions to any benzodiazepine, do not use Xanax. It is important to let your doctor know if you have any breathing difficulties, a history of addiction, depression, or kidney/liver issues.
- Only order Xanax online if you are not a pregnant or **breastfeeding** mom, as it can be harmful during pregnancy and breastfeeding.
- You cannot buy Xanax online if you are under 18 years old.

Xanax instructions

- Ingest the Xanax XR extended-release tablet whole; do not crush, chew, or break it. If your side effects or anxiety do not improve, consult your doctor. Long-term use of this medication may require frequent medical tests.
- Do not distribute this medication to others, especially those with a history of drug addiction. Keep the medicine in a safe place where others cannot find it. Selling or giving away this medication is against the law.
- Do not stop using Xanax without consulting your doctor, as abrupt discontinuation after long-term use can result in severe withdrawal symptoms.
- Keep the medicine at room temperature, away from moisture, heat, and light. Store your medication in a place where it cannot be misused.
