## What Is Zolpidem?

Zolpidem is a prescription sedative-hypnotic medication commonly prescribed under medical supervision for certain sleep-related conditions.

### Common Provider-Supervised Uses

Healthcare providers may prescribe Zolpidem to help:

- Support short-term insomnia treatment
- Improve sleep initiation
- Assist with sleep-management treatment plans under supervision

Because Zolpidem may cause sedation and other side effects, it should only be used exactly as directed by a licensed healthcare provider.
